

EU Mercosur Trade Negotiations in July

All eyes have been on the European Union (EU)-India trade agreement, and the repercussions it will have on access to medicines, not only in India but also in the many developing countries that rely on Indian-produced generic medicines. At the same time, the EU is also negotiating agreements with the Mercosur countries (Argentina, Brazil, Paraguay, Uruguay and Venezuela). Following the last round of negotiations that took place from 2 - 6 May, in Asuncion, Paraguay another round of the EU -Mercosur trade negotiations will take place 4th -8th of July in Brussels.
