

Independent drug bulletin and assessment reports from Spain - now in English

Since 1993, doctors and pharmacists in Spain have digested the latest findings into a balanced review of current treatments for common diseases: **The Drug and Therapeutics Bulletin of Navarre**. It is available free online at [DBT-Navarre](#) in Spanish and English (since 2007). The latest [Drug Assessment Reports](#) are a recently added feature.

DBT-Navarre was featured at a HAI Europe 2009 workshop on *Independent Medicines Information* in Lisbon, Portugal. The presentation ***How to set-up an independent drug bulletin?*** by Dr. Juan Erviti profiles the birth of DBT-Navarre as a case study. His presentation is available to download in [Portuguese](#) and [English](#).
