

2014 Annual Report and Financial Statements

With continued financial support from the Consumers, Health, Agriculture and Food Executive Agency (CHAFEA), the Camino Foundation and Open Societies Foundations (OSF), HAI continued to advocate within the European Union for good governance, equitable medicines access, needs-driven biomedical innovation and trade policies that put health ahead of commercial profits. This work proved to be all the more interesting in 2014 with the installation of a new European Commission. [Read more...](#)
