

Response to Public Consultation on EU Funds in the Area of Investment, Research & Innovation, SMEs and Single Market

Consultation Response | 8 March, 2018 | [Download PDF](#)

Health Action International (HAI) has [contributed](#) to the European Commission's public consultation on EU funds in the area of investment, research & innovation, SMEs and single market - an exercise relevant to the drafting of Framework Programme 9 (FP9) and designing the next European Union (EU) Health Programme.

The contribution to the discussion around the drafting of FP9 is informed partly by discussions that took place at the event [Open Science for Health: Shaping the New Framework Programme](#), organised by HAI and Commons Network on 31 January 2018 at the European Parliament.

This work builds on a [joint submission](#) to the public consultation on Horizon 2020, submitted in February 2017.
