We Need a Responsible R&D Model

(Presentation by Patrick Durisch, The Berne Declaration / Health Action International at the Hearing PACE Committee on Social Affairs, Health and Sustainable Development)

The Problem

- Misalignment of financial incentives and public health
  - Largely due to the patent-based system
  - Geared towards profit-driven research priorities
  - Monopolies leading to high prices, issues of access to medicines
  - Massive – and sometimes illegal – promotion practices

- Conflicts of interests
  - Companies design their trials and test their own products, with the risk to maximising benefits and downplaying harm
  - Proximity with authorities, influence power, industry-friendly rules
