

# Response to OECD Online Consultation 'Sustainable access to innovative therapies'

**OECD Consultation Response | 28 April 2017 | [Click here to download](#)**

Health Action International has submitted a response to an online consultation by the Organisation for Economic Co-operation and Development (OECD) on the ways to improve the sustainability of access to innovative therapies. In the consultation response, we identify major issues that need to be addressed to improve access to medicines and make a series of recommendations on how the OECD can address them.

You can read the full consultation response [here](#).
