The Pandemic Preparedness Treaty

Unlocking intellectual property, knowledge and know-how for the public good

Friday 21 MAY 2021
1400 - 1530 CEST

Ahead of the 74th World Health Assembly, join a discussion with a high-level panel on what a pandemic response treaty should say about the sharing of rights in inventions and data, and access to know-how and biological resources, including rights in government funded research, to scale up vaccine production to meet the global need.
